

Conditions under which Brownes will enter into an Exclusive Milk Supply Agreement to supply a2 Beta Casein Milk

Statement of Circumstances;

Brownes Standard Form Exclusive Milk Supply Agreement applies to milk sourced entirely in the State of Western Australia.

Brownes will procure milk based on its medium and longer term demand forecasts for the sale of finished dairy products specifically related to the demand of our tolling partner to the domestic West Australian market.

Objectives pertaining to entering into an EMSA to supply a2 Beta Casein Milk

- Currently all volumes to supply the a2 tolling agreement are fulfilled and as such it is expected no further MSA (Milk Supply Agreements) will be entered into during the Financial Year 2021

a2 Certification

In order for the Supplier to supply milk to Brownes in accordance with this Exclusive Milk Supply Agreement, and that milk be included in the a2 milk pool, the Supplier must hold and maintain an a2 Certification which the Supplier has obtained from The a2 Milk Company (Australia) Pty Ltd, which certification includes testing of each individual cow in the Supplier's herd for the presence of the A2/A2 gene.

For further information or to request an application to supply milk please contact milksupply@brownesdairy.com.au
